THE CLEAN AND EFFECTIVE SOLUTION

Rediscovering fire

A cool evening - a warming fire in an open fireplace, the very definition of cosiness. If only you didn't have to deal with flying sparks, ugly ash residue and the need to constantly refill the fireplace with wood. And on top of all that: Open fireplaces lose most of their heat up the chimney, meaning it does not radiate into the room.

Wouldn't a fire be much more pleasant if you didn't have to keep checking up on your fireplace?

Optimising an open fireplace is easy: Heating power, efficiency and comfort can be improved significantly by installing a Spartherm cassette or fireplace door.

This easy retrofit is the cleanest, most effective and fastest solution. Spartherm offers a wide range of standard variants and custom designs made to measure for any existing fireplace.

This means: Your fireplace will cause you less trouble and give you more warmth and safety.

WHY CHOOSE A
CASSETTE?

**PERFECT
ALTERNATIVE TO
AN OPEN FIRE-
PLACE**

**REDUCES
HEAT LOSS**

**INCREASES
SAFETY,
COMFORT AND
EFFICIENCY**

LIVING STYLES - MANY WAYS TO YOUR DREAM INTERIOR

Minimalism, modern, classic or retro style: Individual choice is in fashion!

Creating a refuge with a feel-good atmosphere is a very individual choice. Some people love elegant classics of design, others choose modern Scandinavian furniture. Often it feels great to combine the old and the new. Wing-back chairs with high backs are perfect for leaning back and escaping your everyday troubles. Low, wide sofas with soft covers are a great place to spend a relaxed weekend. But maybe it's the large kitchen or living room table that becomes your favourite place and the heart of your home – where the children do their homework, where you cook and eat delicious meals and where friends and family love to get together.

If you manage to evoke feelings and create harmonies with furniture and decorations, you will feel comfortable in your own four walls. Objects with a story are the foundation for a place where you love to spend your time. After that, all you need is some candlelight, a few cushions and a fireplace to warm not just your body, but your soul.

WE HAVE THE RIGHT SOLUTION

If you are looking for a modern fireplace that will heat up your room fast and provide optimised combustion efficiency adapted to your specific requirements, Spartherm has exactly what you need:

A cassette or fireplace door from the Spartherm product range is the ideal solution for retrofitting an open fireplace. These products are perfect for optimising the heating power, comfort and safety of any pre-installed fireplace without requiring complicated construction measures. Say good-bye to inefficient combustion, hard-to-remove ash residue and dangerous flying sparks.

And to top it all off: The design of Spartherm cassettes and fireplace doors can be adapted to any fireplace or room set-up.

THE ADVANTAGES OF A CASSETTE:

- IMPROVED HEATING CAPACITY
- NO FLYING SPARKS
- CONTROLLED BURN-UP
- REDUCED FUEL CONSUMPTION
- CAN BE RETROFITTED TO ANY MODEL OF OPEN FIREPLACE
- NO CHISELLING OR MASONRY WORK REQUIRED FOR INSTALLATION

LINEAR

LINEAR CASSETTES

For more efficiency.

From slim to extra-wide, from XS to XL: Spartherm offers Linear cassettes in five standard sizes. These will add a new, modern frame solution to your fireplace that is sure to fit perfectly. The entire fireplace becomes more efficient, cleaner and safer.

Linear cassette XS 500

Linear cassette S 600

VARIANTS

Linear cassette XS 500	 A+
	 4.0 - 5.2
Linear cassette S 600	 A
	 4.5 - 6.5 kW
Linear cassette M 700	 A
	 4.5 - 7.8 kW
Linear cassette L 800	 A
	 4.5 - 9.1 kW
Linear cassette XL 900	 A
	 5.6 - 10.4 kW

LINEAR

LINEAR CASSETTES

For more efficiency.

All Spartherm Linear cassettes comply with the 2nd level of the German Federal Emission Control Act (BImSchV) and are available in five sizes and with different screen widths.

Cassette Prisma		A+
		4.5 - 10.4

In addition to the Linear cassettes, Spartherm also offers custom designs. The advantage: Custom-made cassettes from Spartherm can be made to measure in a variety of shapes and designs – straight, prismatic, round, rectangular or as a round arch, all options are available.

Having a Spartherm cassette made to measure is the ideal solution for a modern retrofit of an open fireplace. It can easily be integrated in any pre-installed fireplace.

And it comes with the full level of safety and comfort of a cassette.

CASSETTES

MADE TO MEASURE

Designs to fit any style

Individual and unique: Like the furniture of a house or apartment, the fireplace should also express the owner's design choices. Choosing a modern and functional Spartherm cassette is the first step toward a modern, sustainable form of heating.

Whether you choose a classic or modern design: Spartherm's custom products offer perfectly adapted design solutions for any living style or room set-up.

INDIVIDUAL STYLE – SPECIAL SOLUTIONS

Architectural creativity knows no limits. If you have a sophisticated room concept with a special fireplace, Spartherm offers the custom-made cassettes to fit it precisely. As experts for fireplace technology with in-house production facilities, Spartherm can easily create customised special designs.

Spartherm's modern fireplace design adds that final touch to any home ambiance, both visually and technologically.

The manufacture of a new cassette is carried out in accordance with the structural conditions and the exact dimensions that are determined on site by the fireplace installer. Spartherm cassettes and doors are always manufactured to fit precisely. As a result, every item produced is an individual piece.

FIREPLACE DOORS

CLOSE THE DOOR AND LIGHT THE FIRE!

Did you know? The larger the glass surface of the fireplace door, the more warmth quickly radiates into the room. The doors also provide a perfect view of the cosy fire - pure pleasure. Let the advantages convince you: Perfect functionality, along with uncomplicated and clean installation, is a compelling argument for Spartherm fireplace doors.

FIREPLACE DOORS

A MATCHING DOOR
FOR ANY FIREPLACE

For greater safety

CLOSE THE SAFETY GAP

There is no doubt: A fireplace has to be as safe as possible. That is why it makes sense to modernise older fireplaces. Spartherm fireplace doors are a safe and clean solution for any room set-up. They provide greater heating power, more effective combustion and better air quality.

WHAT A FIT!

Spartherm fireplace doors come in four basic versions, straight, prismatic, 2-sided (left and right) and 3-sided.

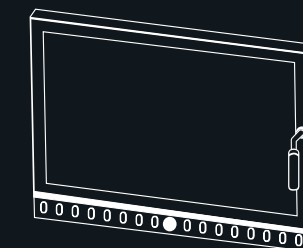

Please note:

Fireplace doors change the design of the existing open fireplaces. It is therefore necessary to coordinate with your neighbourhood chimney sweeper.

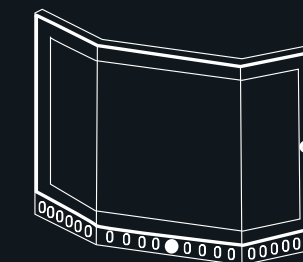

High technical quality combined with a well-balanced design. With Spartherm fireplace doors, a pre-installed fireplace will provide even more heat and even greater safety.

¹⁾ Screen: Standard Linear cassettes ➔ Linear XS 500 = 45mm / Linear S-XL = 60mm | Additional screen widths available | Subject to technical modifications.

²⁾ The values are intended merely for orientation. A systematic determination of the heating load must be made in accordance with TR-OL or in accordance with DIN EN 12831. Changing the amount of wood filled from 30 % based on the nominal output may lead to variations of the room heating capacity.
